

THE MYSTERIOUS “THIRD EYE”

In churches, in \$ bills, and ...?

My friends, all over, here is how the way of life, it's ritual ceremonies, including the use of the Third Eye, from the Paradise-time, thousands of years ago, in Finland, then Vinland, was known, now told for the first time ever, that may alter your thinking, and the world, so be aware!

Mystery it has been, the Third Eye, up till now, but now we can prove that it is definitely from Finland, and what it meant originally, and where it is to be seen, the mystery which can be solved only with Finnish and “Root” languages, still spoken here, at the narrow south coastal area. The Greek historian Hesiodos mentioned the *Third Eye* 2 700 years ago in his book “The Birth of Gods”, and another Greek, Herodotos, 250 years later, although he says that he does not believe that those men of “Extremely North”, Hyperborea, have it in the middle of their forehead, as he had been told, but not seen. Greeks had the story “Odyssey” where the giant Kykloop had it there. But that word gives us first hints of its Finnish origin, as “Kyy” is a common poisonous venom spitting snake here, and “loop” is the tube with the “eye” at the end of it, what the watchmakers are using, to magnify the very small parts of wrist watches. *Loop is the phallus and “venom” symbols the sperm of a man.*

The *Third Eye* can be seen above the southern door of a main Lutheran Temple, with signs of Yoni and Linga in it, of Helsinki, inside a triangle, showering rays around, at its “forehead”, said by church to be the eye

with what God is looking at us, to be seen in many other churches too! But where it originally was (is), as it still is in its original place, this may surprise you? Well, to see the *original one, from a man*, it's not at the forehead, no, no, *you have to be brave and look much lower, still lower, below navel, there!* Stop! Now take his pants down and look at the *head of his penis*, (at his Adam's apple, the one that Eve...?) where there is a small hole, from where that Kyy “snake” spits is “venom” out! Vatican will never admit or tell it or perhaps does not even know the origin of it. It definitely is from the time before any religions, it is from Finland, former Vinland, as with only the Root and Finnish languages you can find the explanation for it. The snake is to be seen in many pictures from Paradise with Adam and Eve, coiling around the tree of “bad and good knowledge”, the “apple” in its mouth. (By the way, the rib, from which Eve was said to be “made”, is “Räffben” in Root, meaning Foxbone, as women were said to be as elegant and witty as Foxes, in English, Foxy lady, but also, *Räf or re-formed*)

But what makes the “*Third Eye*” symbol so mysterious is that it appears on US dollar bills too, put there by the eight Freemasons, (Washington being one of them) that were present to put their names under the Declaration of Independence of the USA, in Philadelphia, at 1776. The Dollar (\$) being “The” currency around which the world economy has been rotating ever since, as it was cheap to print paper money. But strange it is

THE MYSTERIOUS THIRD EYE

to see the *Third eye* also in so many churches and temples, old and new, all around the world, and on the back cover of my Finnish Bible.

The sperm, that comes from the *Third Eye* of the Lord, the Ukko, was the most valued substance (e-van-*gel*-ium) in the world, (should still be), as he had “fathered” all the people in the globe, by mating with the ladies of the next lower Ros-cast, their sons again continuing for the next cast, and so on, to the bottom, (called festival) but the bottom men were not allowed to beget children, their task was to *offer their “venom”* step by step up to the main “seeder” as Nektar, (that called Carnival) who needed plenty of energy to get his task done. This main seeder was Lemminkäinen, (Sol Bocken Balder, the part “Lem” meaning his phallus) always the 12th son of the Ukko, for whom the most beautiful and healthy young girl in the world (we still have those Miss Universe contests) was selected as a wife, who was to “supply” the next family of Goods, (not Gods, but Goods) who were mentioned to be extremely virtuous, by Socrates, Homer and Plato. The last hereditary Ukko died here in Finland at 1897, but of course he had not acted in the community anymore, actually not from the year 1050 on, when Vatican army invaded and destroyed everything in here, forbidding people to live here for the next 200 years, but the story was being told and retold continually inside the Bock family, secretly, *for 736 years*, can you believe, from 1248 until 1984, when it became public, known as Bock Saga. Ior Bock, the last member of the family of “Goods”, the King and Seer, is now 68, his sister, the Queen and Seeress, having died at 1976.

So now you know where the *Third Eye* is and has been all the time, every man has it, it's there, at the tip (apple) of phallus, which is the *Tor (Thor, that Dear Baby has many names)* within every man. But there is one ex-

ample where we can see the picture of the original “*Button hole Third Eye*”! It's on back of one Russian Icon holder, made in the world famous Fabergé workshop in St Petersburg, from gold and precious pearls, rubies, sapphires and diamonds, at 1888, by Erik Kollin, a Finnish master gold smith. There it is, the button with its holes, in the centre of it, inside a triangle, diamond rays spreading from it all around, and you can easily see that *it is a button with two holes* and a shallow ditch in between, for the thread, just like at the tip of phallus, when you press it from sides a bit, *check it, for heaven's sake!*

But what about the text “In God We trust” in all US bills and coins also, what for? At whom or what do the US bank-people really trust? Somebody “up there” or what? Well, the “God” is not god but Good! It's the phallus of Lemminkäinen, the man who is also the Yule Bock, or Santa, or Devil, he had many disguises as he had to put a bock's hide on, with horns and tail too, and mask, at ceremonies, just as the real bock with his flock of lambs. So you are right when you say “in God we trust”, only the “God” *is not* somewhere high up but inside the pants of the original Santa, (or every man) *you can trust him*, (all children in the world will) as at him we will find the “*Third Eye*”, what spits the E-van-*gel*-ium, the seed for all wives to continue populating the world! (Here in Finland Santa comes inside our homes the night before, to deliver the gifts himself, (husbands watching, but if she is a widow...?) and the public TV is showing his departure from his workshop in Lapland, every Christmas, *with only two “sacks” of gifts in his reindeer pulled sleigh. Oh!*) At that night one can see hundreds of ordered “santas” cruising with their autos here and there, their ads in papers months before!
